**Administrator's Report to the Trustees
August 16, 2021**

The following represents a brief update of the activities, information, and issues which the Administration is currently working on:

- Work continues on the Wilmington Pike/I-675 Corridor traffic study. We hope to have a defined, preferred option by the end of September.
- We have submitted for the ARP funding and have been approved. We should expect our first half of the total amount in the coming weeks. We are working to establish a list of possible expenditures for the funds which must be committed by the end of 2024 and expended by the end of 2026. It is anticipated that the determination of uses will be modified during that time.
- Engineering continues for the Carpenter Road Realignment/Widening project. The majority of the design is completed, but we are awaiting documents needed for agreements with property owners. I expect to have those next week and we can begin the process of discussions for agreements with the affected property owners in the project area.
- Open enrollment for benefits is taking place at this time. The cut-off for employees to modify their participation is August 27th.

Respectfully Submitted,

5) **Public Hearing ZC-Case 05-2021**

Applicant, EDCI II Partnership, is requesting Final Development Plan Approval for Section 3 of the Landings of Sugarcreek Addition. The subject parcel has an address of 3570 Marwood Drive, contains 8.198 acres, can be further identified by parcel number L32000100120023500, is owned by EDCI II Partnership, and is located in the PUD-R (Residential Planned Unit Development) District. Section 3 of the Landings at Sugarcreek Addition is proposed to contain a total of 28 lots and 8.189 acres and is completely surrounded by land comprising the Landings at Sugarcreek subdivision. - 2021.08.02.01

- Public hearing is formally opened
- Staff report on the text amendments
- Applicant presentation

Mr. Breschia spoke about the new developments, he stated that Inverness and EDCI II have worked out a plan to have this set number of lots between the two companies.

Mr. Cramer stated that at one point there were issues with the developer, landscaping and things were promised and they did not keep up their end of the deal.

Mr. Breschia stated that the area is shared so the area in question is in the front which is a part of the Inverness side. The problem started because to get sanitary lines in they would have to go along side the road. And that would require them to dig up the concrete and everything, which was not the greatest idea. The sanitary department was not going to allow them to go that deep with sanitary along the road. The next option was for Inverness to take their water through the part that EDCI owns. The arrangement was that they were going to take their water flow into the pond and Inverness would make the adequate pipe sizing there for EDCI to drain. But what happened was that the engineer forgot to take into account a 5-acre section in the adjacent Bellbrook development. There was too much water flow going into the back of Little Sugarcreek, when the water was rerouted, it used up some of the space in the opening. EDCI therefore had to bring their water down the middle and get it into the pond in a different area. That was about an 8-month process to fix all those problems, they then had to bring that piping into section 2, so they had to get involved again. They have been trying to get everything done, the rain has been holding them up and they have to get larger equipment into the area to continue development, but Inverness has to complete their work before they can bring in the larger equipment.

- Those wishing to speak in favor

Mrs. Destefani asked if anyone wished to speak in favor of the application. No one wished to speak.

- Those wishing to speak against

Mrs. Destefani asked if anyone wanted to speak against the application. No one wished to speak.

- Neutral parties wishing to speak

Mrs. Destefani asked if there were any neutral parties wishing to speak. Hearing none, Mrs. Destefani moved to close the public hearing.

- Public hearing is closed
- Deliberation and decision.

Mrs. Destefani asked about the any fallout with Bellbrook.

Mr. Tiffany stated that they resolved everything pretty early on.

Mrs. Destefani also asked about the cease and assist with Mr. Haller, if there is a deadline they have to be finished by now.

Mr. Tiffany stated that they have entered into some agreements with the county engineer's office and with the Township. They will be able to get everything done on the timeline they have discussed.

Mrs. Destefani also asked about the egress for the fire department access.

Mr. Tiffany stated that there is an exit into Red Wood.

Mrs. Destefani asked if it would be open all the time.

Mrs. Tilford stated that, yes it would be open all the time.

Mrs. Destefani stated that the whole process gets confusing sometimes, usually when they see these things, they have already gone through Greene County. And gotten approvals but that is not the case this time.

Mrs. Tilford stated that after the Townships approval they will have to go through subdivision platting process and that is what those specific comments are referring to.

Mrs. Destefani made a motion to approve ZC Case05-2021, Mr. Cramer seconded.
Roll was called with the vote being as follows:

Mrs. Destefani – Yes
Mrs. Daugherty – Absent
Mr. Cramer –Yes
